

Project: Siemens EDA – SDET Technical Task – Task 1
Document: Bug Report (manual testing)
Tested URL: http://s3-design-sample-site.s3-website-us-west-2.amazonaws.com/
Tester: Nagy Raouf
Date: August 9, 2025
Test Environment: Chrome 139.0.7258.67, Windows 11

ID	Title	Description	Steps to Reproduce	Expected Result	Actual Result	Severity
B-01	Broken Search Bar	Search bar is non-functional and contains hardcoded placeholder text	1. Open home page 2. Enter any text in search bar 3. Press enter	Results should appear matching search term	No action or results displayed	High
B-02	Duplicate Page Content	Company and Contact pages have identical description text	1. Navigate to Company Page 2. Check description under company tab 3. Navigate to Contact Page 4. Check description under contact tab	Each page should have unique relevant content	Both pages show same text	High
B-03	Image Not Displayed in Home Page	Homepage shows “Adobe Flash Player is no longer supported” instead of image	1. Open homepage 2. Check image displayed in home page	Image should be visible	Plugin error displayed	High
B-04	Incorrect Product Category Links	All sidebar product categories lead to the same URL (food1a.html)	1. Open homepage 2. Click on each category link under "Product Application Categories" 3. Check the content displayed and the URL link	Each link should lead to relevant content page	All lead to same page URL (food1a.html)	High
B-05	Printable Product List Link Broken	Link opens incorrect/missing PDF	1. Click “Printable Product List” link 2. Check the PDF loaded	Correct PDF should load/download	Wrong PDF is loaded	High
B-06	Navigation 403 Error	Navigating from food1a.html to company. html gives 403 Forbidden	1. Open the home page 2. Click on any of the categories under "Product Application Categories" (i.e. Rubber) 3. Click on "Company" tab	Company page should load	403 Forbidden error displayed	High
B-07	Site is Not Secured (No HTTPS)	The website is served over HTTP instead of HTTPS, making it vulnerable to data interception.	1. Open site URL 2. Check browser address bar/security indicator.	Website should use HTTPS with a valid SSL/TLS certificate.	Site served over HTTP, browser marks site as “Not secure” (no SSL/TLS).	High
B-08	Untitled Document in Browser Tab	Browser tab title shows “Untitled Document” instead of a meaningful page title.	1. Open any page 2. Look at browser tab title.	Tab title should reflect the page/site name (e.g., “Acme Chemicals – Home”).	Tab title shows “Untitled Document” instead of a meaningful title.	Medium
B-09	Products Page Shows Only an Image, No Product Listings	The Products tab leads to a page that displays only a static image instead of an actual product list or details.	1. Open the site homepage. 2. Click on the products tab in the top navigation. 3. Observe the content displayed.	Products page should list all available products with names, descriptions, and relevant details (and ideally images) in a structured format.	Only a static image is displayed; no product names, descriptions, or prices are shown.	High
